QUIET AGENCY · CLIENT PACK

Owner Manual & Deal Brief

Everything Sully's ownership needs — logins, features, how we beat generic gym SaaS

Prepared by: **QUIET AGENCY** **For:** Sully's Boxing Gym (EST 1943) **Date:** August 2026

Purpose: Owner walkthrough + close the platform decision

The pitch in one line: Glofox / Mindbody sell *booking + billing templates*. Quiet Agency built Sully's a **Digital Performance Platform** — website, member portal, desk, coach timer, floor TVs, waivers, kids/family, kitchen path, and owner analytics on **one database**, branded for Canada's oldest boxing gym — not a white-label clone.

1. Why this beats Glofox-class tools

Generic gym software is optimized for franchise templates and monthly SaaS fees. Sully's needs a **facility OS** that also tells an 80+ year story and runs the floor like a pro sports organization.

Capability	Typical Glofox / Mindbody	Sully's Platform (Quiet Agency)
Brand & website	Template marketing site or bolt-on	**Heritage site + live join path on the same stack as ops**
Booking / membership	Strong baseline	**Parity+ — products, family seats, digital card, join funnel**
Waivers	Forms / e-sign modules	**Required packets + guardian signing for youth**
Front desk	Check-in / POS plugins	**Scanner, override audit, drop-in CASH/CARD, family link**
Coach live class	Attendance lists	**Live Mode timer → Floor TV clap/bell + celebrations**
Gym TV network	Rare / third-party signage	**Floor + reception boards tied to live class state**
Athlete progression	Usually none / points bolt-on	**Boxing Passport, XP, levels — habit loop beyond booking**
Kids / parents	Youth class tags	**Guardianship, youth memberships, parent waiver path**
Kitchen	Separate vendor	**KDS already on staff; paid checkout on same payment OS next**
Owner intelligence	Generic reports	**Kids vs adult mix, cash vs card, waivers, walk-ins, group message**
Payments (Canada)	Processor lock-in / US-centric	**Sully's owns the ledger; Helcim-first Canadian path (see Banking PDF)**
Ownership of roadmap	Roadmap set by SaaS vendor	**Built for Sully's by Quiet Agency — you prioritize the gym**

Honest status: Demo / soft-launch stack is live today. Online card charging moves to Helcim next (mock/demo billing until keys). QuickBooks sync is planned after banking. That is intentional — *Sully's remains source of truth*, processors are services.

2. All access — links & logins

Production URLs

Surface	URL	Who
Public website	www.sullys1943.com	Anyone
Coaches roster	/coaches	Public
Member / coach app login	/app/login	Members + coaches
Phone Coach home	/app/coach	Coach role
Floor TV	/tv/floor	Gym display
Staff console	sullys1943-staff.vercel.app	Desk / coach / owner
Owner desk	…/owner	Owner / admin
API health	api.sullys1943.com	Ops

Demo accounts — password for all: `password123`

Role	Email	What to show the owner
Member	`member@sullys.local`	Book, digital card, Passport / XP (Gavin)
Coach	`coach@sullys.local`	Live Mode timer → Floor TV (Tony Morrison)
Front desk	`desk@sullys.local`	Scanner, drop-in CASH/CARD, family link
Admin	`admin@sullys.local`	Staff user admin
Owner	`owner@sullys.local`	Revenue, memberships, waivers, walk-ins, group messages

Critical demo tip: Timer Start/Pause only works on a *coach* (or admin/owner) session. If you see "Staff role required," you are still logged in as member — sign out, then `coach@sullys.local`. Prefer two screens: Coach Live + Floor TV.

3. Owner feature manual (client-side)

A. Owner desk LIVE

Staff → sign in as owner → **Owner desk**.

- **Money to Sully's** — today & month totals, split by tender (cash / card / mock)
- **Memberships** — kids/youth vs adult counts + product breakdown
- **Waivers** — signed today vs still unsigned
- **Walk-ins** — sales count, check-ins, dollar amount
- **Demographics** — under-18 vs 18+ when DOB is on file
- **Group message** — blast youth, adult, monthly, trial, drop-in, or unsigned-waiver members
- **Floor pulse** — check-ins, classes, kitchen open tickets, staff overrides
- **QuickBooks** — status panel (planned; see QB PDF)

B. Front desk LIVE

- USB / wedge scanner check-in with today's class attached
- Staff override with reason when waiver/membership blocks (audited)
- Member search → check-in
- **Sell drop-in** — **CASH** or **CARD** buttons ($25 same-day) → hits owner revenue
- Link child to parent (guardianship + youth waiver packet)
- Kiosk + dry-run paths available from staff hub

C. Coach Live + Floor TV LIVE

- Phone coach (`/app/coach`) or Staff Live Mode
- Demo preset 45s / 15s / 3 rounds for fast client demos
- START / PAUSE / RESET / STOP / FINISH
- TV: wooden double-clap ≤10s, bell at 0, celebration modes (XP / achievement / complete)
- Tap "Test sound" once on the TV browser so audio unlocks

D. Member experience LIVE

- Join / login, book classes, digital membership card
- QR / token check-in path
- Passport / XP progression (beyond "just booked a class")
- Digital waivers (self + guardian for youth)
- Billing history (mock until Helcim cutover)

E. Public brand site LIVE

- Homepage atmosphere + youth/Rival photo carousel
- Official coaches roster page
- Programs / join / contact entry points
- Same org data as the gym OS — not a disconnected brochure site

F. Kitchen KDS LIVE · paid checkout NEXT

- Staff kitchen tickets / allergen-aware board already on the OS
- Card pay for kitchen attaches after Helcim payment abstraction

G. Admin LIVE

- Invite / role-change / disable staff accounts (owner or admin)

4. Suggested 10-minute owner demo (close the room)

1. **0:00** — Homepage + carousel (brand ≠ generic SaaS)
2. **1:00** — Coaches page (real trainers)
3. **2:00** — Member login → card + Passport XP
4. **3:30** — Switch to coach → Live Mode + Floor TV side-by-side
5. **4:30** — Demo preset → START → clap at 10s (wow moment)
6. **6:00** — Desk: sell drop-in **CASH**
7. **7:00** — Owner desk: cash revenue + kids/adult mix + send a group message
8. **8:30** — Contrast table: "Glofox doesn't run your floor TV or boxing passport"
9. **9:30** — Ask: Helcim go-live + soft-launch date (Next Steps PDF)

5. What Sully's owns vs what Quiet Agency delivers

Sully's owns

- Brand, legacy, coaches, members, cash drawer
- Business rules (prices, youth policy, overrides)
- Helcim merchant account & bank deposits
- QuickBooks company (when connected)
- Member data under your org — not rented forever from a template vendor

Quiet Agency delivers

- Custom platform engineered for this gym
- Website + member + staff + TV on one backend
- Roadmap you can prioritize (kitchen pay, SMS, franchise)
- Ops PDFs: Banking, QuickBooks, Next Steps, Demo Guide
- Partner who closes gaps SaaS never will for EST 1943

6. Companion documents (hand the stack)

PDF	Use when…
`Sullys-Client-Demo-Test-Guide.pdf`	Full pass/fail demo checklist
`Sullys-Banking-Payment-Setup.pdf`	Helcim / bank / env secrets
`Sullys-QuickBooks-Integration.pdf`	Accounting path after Helcim
`Sullys-Next-Steps-Todo.pdf`	Prioritized post-demo to-do
This pack	Owner manual + competitive close

7. Closing the deal — ask & next signature

- ☐ Owner confirms: "We run on Sully's Platform (Quiet Agency), not a Glofox clone."
- ☐ Owner opens Helcim sandbox / KYC (Banking PDF)
- ☐ Quiet Agency starts Helcim `PaymentProvider` cutover
- ☐ Soft-launch dry-run date booked (desk + owner totals match)
- ☐ Bookkeeper aligned on QuickBooks Phase A CSV → Phase B sync

Close line: “Glofox can book a class. This system books the class, checks them in, runs the round clock on the wall, celebrates the athlete on TV, tracks youth vs adult money for the owner, and keeps Sully’s brand — not a generic gym skin — at the center.”
